

## QUALITY POLICY

As manufacturers and suppliers of high quality machined components, electro mechanical and mechanical sub-assemblies, to meet its goal of class leading quality and delivery Flexible Machining Systems Ltd has implemented an effective Quality Management System compiled in accordance with the requirements of AS9100D and ISO 9001:2015.

The Quality Management System shall serve to communicate expectations, establish controls and foster a culture committed to excellence in everything we do.

To establish the context of our organisation, we aim to understand internal and external issues that are of concern to Flexible Machining Systems and its interested parties. These issues are identified through analysis of risks and such issues are monitored and updated as appropriate and reviewed by senior management.

Through internal communication, competence, awareness, training, and the results of internal auditing and management reviews, we are committed to setting and meeting quality objectives and the objectives of departments and individuals enabling us to achieve the highest standard of both product and service quality.

Flexible Machining Systems Ltd is unreservedly committed to continually improving the Quality Management System in order to provide the highest quality product and to satisfy the requirements of our customers and where applicable, any statutory or regulatory requirements.

The Flexible Machining Systems Ltd ethos is that all employees take responsibility for the quality within the company and for maintaining high standards.

The responsibility for the establishment, implementation, maintenance and effective operation of the Quality Management System resides with the Senior Management Team.
